

Juuust A Bit Outside #12

Mini Message

Well, here we are with only two weeks of regular season left. Overall, the teams are well balanced. Quality Cabinets has a leg up on the league but lots of options remain for divisional titles.

There have been a few concerns about Diamond 3. We were able to put a safety screen about 100 feet behind the pitching screen and that has made it safer for the ball retrievers. There are rules about D 3 use in our constitution. Only members of the next game up should be there practicing. Hitters should take about 5 swings and move along. Anyone coming by to hit also needs to shag balls in the outfield. Very little goes unnoticed by someone around the softball world.

Let's keep on top of the Smoking and Pet policy. I guess I need to remind all not to park or ride bikes or golf carts on the paved brick areas adjacent to the backstop and fenced areas.

Please continue to be civil to all and **calmly** deal with all issues pertaining to Citrus Park Softball.

Next season our new president elect will be Rich Norris. We are very lucky to have Rich in a leadership role. He has volunteered for many softball related activities and is a 12-year veteran on the diamond. He is a Steelers fan but that can be overlooked.

Dan Draper will be taking over as the V.P. of Grounds. His many years of experience in this area will be invaluable to our league. If you are ever looking for him, he's always at the fields checking them out and making them ready and safe for us all.

Finally, let's hope the weather cooperates with the rest of the season. As of this writing Monday February 16, looks questionable. We will do what we have to and hopefully we can roll with it as we have through the winter weather of the last few weeks.
